

Brief Description of the Program

Career

Social work specialists provide assistance to people regardless of gender, age or religion. Social work is a kind of a 'calling card' of any country, which characterizes the level of the development of its public institutions, humanity and humanitarian law.

The social workers provide and organize material and domestic assistance and moral and legal support to the disabled, lonely elderly people, mothers with many children, orphans, people suffering from serious illnesses, alcohol and drug addicts, as well as other categories of citizens in difficult life situations .

Educational process

Training is carried out by a highly qualified faculty. Training sessions are conducted in the form of lectures, consultations, seminars, workshops, tests, individual work and colloquiums.

Brainstorming is widely used and training sessions on the development of professional communication skills are held.

Undergraduate students intensively study special disciplines. The specific feature of the training is participation of students in design and volunteer activities. Students develop and implement socially-oriented projects aimed at improving the quality of life of a specific group of people who need assistance.
